

Floseal
Hemostatic Matrix

INTRODUCING **EASYGRIP FLO-41**

The Easy Choice for Easy Application

- Targeted Delivery
- Enhanced Control
- 1-Handed Application

Baxter

EASYGRIP FLO-41 enhances the user experience by combining a responsive trigger with a malleable tip, enabling you to deliver controlled amounts of hemostatic matrix directly where you need it.

Targeted Delivery

Malleable tip enables precise hemostat delivery into small, difficult to reach surgical sites

Enhanced Control

The Easy-to-Grip trigger is engineered to deliver a controlled amount of hemostatic matrix¹

1-Handed Application

Ergonomic handle enables one-handed application without interrupting the flow of surgery
